

RANVIJAY SINGH

Full Stack Developer (MERN & Next.js)

+91 9905281952 | ranvijaysingh1588@gmail.com | Portfolio: ranvijay.hitechcrest.com | [LinkedIn](#) | [GitHub](#)

Technical Skills

Core Expertise: Full Stack MERN Development, Authentication Systems, Admin Dashboards, Marketplace Platforms, Booking Systems
Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, Socket.io
Database: MongoDB, Mongoose ODM
Cloud & Deployment: AWS S3, Vercel, Render, Netlify
Tools & Practices: Git, GitHub, Postman, API Integration, Responsive Design, CI/CD Basics

Professional Summary

Full Stack MERN Developer with hands-on experience building and deploying scalable web applications using React.js, Next.js, Node.js, and MongoDB. Built real-world projects including marketplace, booking, and management systems with authentication, REST APIs, and cloud deployment. Passionate about solving business problems through scalable software solutions.

Professional Experience

HiTechCrest **Rajkot, India**
Full Stack Developer (MERN) *March 2026 – Present*

- Full Stack Development:** Spearheaded the complete software development life cycle for scalable web applications using the MERN stack, delivering high-performance B2B solutions and increasing client operational efficiency by 30%.
- API & Security Architecture:** Architected RESTful APIs and implemented secure JWT-based authorization pipelines, mitigating system vulnerabilities and ensuring secure data transactions.
- Cloud Deployment & CI/CD:** Managed full-stack deployments across AWS and Render using automated CI/CD pipelines, reducing manual deployment times by 40% while maintaining high application uptime.

Projects

UtsavMate (Wedding Services Marketplace) - [Live Link](#) | Next.js, Node.js, MongoDB, AWS S3 **2026 – Present**

- Marketplace Launch:** Built and deployed a live marketplace platform serving real users, enabling direct vendor-customer interaction and lead generation.
- Frontend Optimization:** Engineered a high-speed customer interface utilizing Next.js Server-Side Rendering (SSR) and advanced SEO metadata, boosting organic regional traffic and improving page load speeds by 40%.
- Backend Architecture:** Developed a robust multi-role backend with Express.js, enabling secure vendor dashboards, dynamic rate card management, and real-time portfolio updates.
- Cloud Storage Integration:** Configured AWS S3 buckets for secure, scalable image hosting, optimizing the delivery of high-resolution vendor assets and reducing server load by 35%.

Inventory Management System | Node.js, Express, MongoDB, REST APIs **Nov 2025**

- Backend Engineering:** Designed a highly scalable backend processing 5,000+ daily CRUD operations across multi-store environments, ensuring zero data discrepancies.
- Database Efficiency:** Implemented complex MongoDB aggregation pipelines for dynamic, real-time stock reporting, accelerating data retrieval times by 50% for administrators.

AI Code Reviewer Platform | React.js, Node.js, Gemini API **2025**

- AI API Integration:** Architected a SaaS platform automating code analysis by integrating the Gemini AI API, successfully reducing manual code review processing time by 40%.
- Secure Infrastructure:** Deployed Node.js microservices on Render, implementing strict CORS policies and environment variable encryption to secure asynchronous data streams.

Enterprise Vehicle Rental System | MERN Stack, Tailwind CSS **2026**

- System Design:** Developed a dynamic fleet management application capable of handling real-time inventory tracking, complex pricing algorithms, and seamless user booking flows.
- Concurrency Handling:** Optimized MongoDB querying logic to prevent booking overlaps, successfully supporting high concurrent user sessions with zero data inconsistency.

Education

Marwadi University (NAAC A+) **Rajkot, Gujarat**
B.Tech in Computer Engineering; CGPA: 7.75 *2022 – 2026*
